Christmas Dinner

Next Meeting

Sunday
Dec 15, 2019

4:00 PM
at
Martino's

The only updates reported on the **flying field** are: 1) The rat poison in the shed appears to be effective. 2) Marc & John intend to power wash the airplane stand prior to next summer.

Following up from the **EAA Family Fun Day**, Ben Gleason (EAA Chapter 50 manager) contacted Marc about collaborating on another event next summer! We plan to start this discussion with them in February, anticipating an event in June.

Though our **Winter indoor flying** has gotten off to a rough start – the school forgot about two November dates that were not available – we expect December to go as planned. Marc has also been in contact with Norwalk schools, which may have a larger venue available for next year.

To kick off the **Winter Seminars** portion of our monthly meetings, I demonstrated a new battery charger (SkyRC B6 Nano) that can communicate with a smart phone via bluetooth. Not only does this device allow you to set all charging parameters and monitor progress via your phone, but it can also create bar/QR codes that you can print out and attach to your batteries, allowing you to simply scan your pack (with your phone) to initiate charging. This offers a more economical approach to the latest "smart" battery systems that have been showing up on the market lately. Feel free to contact me if you'd like to know more about it.

Some members have commented about the absence of recent **photos** on our website. It's been a couple years since any have been added. So if you have a clear photo that captures the spirit of our club, feel free to send it to me for inclusion in the online gallery.

Remember that our annual **Club Christmas Dinner** will be at Martino's (Vermilion) on Sunday, December 15th at 4:00 PM. Spouse, family & guests are welcome! This will also serve as our monthly meeting, with just a brief update on club business.

Happy Holidays!

Jeff Williams
Secretary, LZRC
