7:00 PM
at
The Field

Due to several factors, we did not have a June club meeting or Fun Fly, so let's catch up on what's been happening with the club, shall we?

Welcome **new member**, Chris Scott!

Prior to our meeting, Erin McLaughlin, a photographer from the Sandusky Register, reached out to us via our website. Wishing to get some photos and learn a little about the club, we committed to spending some time with her ahead of the meeting. We had excellent attendance and many planes on display for her. Thank you to Erin and all who participated in this special event! The article appeared in the July 28 weekend edition, and can also be viewed on their website, where many more photos can be seen. www.sanduskyregister.com.

I have updated our official **club roster** with the AMA, as well as our membership count in the left-hand margin of this newsletter. Any past members who did not return for 2018 have been moved to the "Guest" distribution list. Guests typically only receive one email per month, which includes this newsletter.

Steve & Ryan have the **mowing schedule** covered thru August, but if you would like to help them out, please let them (or me) know. Unfortunately, we are back down to one functioning mower (the JD), but plan to evaluate the Huskee for repairs soon.

Despite a last-minute scheduling change and high temperature, our first **monthly Fun Fly** potluck was a success. With about a dozen members, several guests, a tasty lunch, and steady breeze, we had a good time. Our next **Fun Fly** is planned for Sunday, August 5th. So, bring a dish, your preferred beverage, and family/friends. You may show up at any time, and the club will provide burgers & dogs around noon.

We've begun planning for the return of our **Swap Meet** on November 4th at *Daniels Hobbies*. We have capacity for about 20 8-foot tables, which can be reserved thru our website, or by contacting Marc. More details coming soon.

The new **GroupMe texting list** is now our only active list for cell phone mass communication, as the old method will no longer be used. This distribution is used for meeting & event reminders, field status updates, and member invitations to meet up & fly. If you'd like to be added to this list, just let me know. You do not need to install the *GroupMe* app to simply receive messages, yet you still get the advantage of seeing who sends each message. However, I've had the app installed for several months now, and it has been transparent and non-intrusive.

A couple **nearby events** for your consideration:

Firelands Float Flyers at New London Reservoir... Aug. 11-12.
TORCM Fun Fly & Tail Dunk Challenge... Aug. 18-19.

See you at the Fun Fly!

Jeff Williams
Secretary, LZRC
